Skills

- React
- Tailwind CSS
- GSAP Animations
- Python (Django)
- AWS
- SQL
- Figma

Languages

- Greek (Native)
- English

Hobbies

- Calisthenics
- Chess
- Video Editing

Education

Bachelor of Computer Science

Department of Information and Electronic Engineering

2019-2023

Graduated with a 7.48/10 GPA, focusing on building functional web applications during my university studies. I developed a strong command of core web technologies, including HTML, CSS, JavaScript, PHP, and SQL. Beyond web development, I built a solid computer science foundation by mastering diverse paradigms and object-oriented languages such as Java, C++, C#, Python, and Prolog.

English Language Certificate

Pearson Edexcel Certificate in ESOL International (Upper Intermediate)

2014

Experience

KeepMe (Digital Business Cards)

Fullstack Web Developer

Sep 2024 - Jan 2026

- Engineered a digital business card platform using Django (Python) and React, allowing users to create, manage, and share professional profiles.
- Developed a highly interactive frontend with Tailwind CSS and GSAP, implementing advanced ScrollTrigger animations to enhance user engagement.
- Architected a robust backend with PostgreSQL, featuring a complex multi-tenant system for individual users and corporate teams with invitation workflows.
- Integrated third-party services including Stripe (subscriptions & webhooks), Google OAuth, and Plausible.io for real-time traffic analytics and seamless "Add to Wallet" functionality for Apple and Google Wallet.

Greek Military

Corporal

Oct 2023 - June 2024

- Successfully completed 8-month mandatory service, fulfilling all national military obligations.
- Promoted to Corporal during operations in Greece and Cyprus.

Cosmote (OTE Group)

Technician Intern

Jan 2023 - June 2023

- Installed and provisioned network lines for residential and business customers.
- Diagnosed and repaired faults in xDSL and FTTH networks.
- Assisted engineers with network maintenance and hardware upgrades.

Family Agricultural Business

Operational Support & Field Management

2016-2023

- Maintained consistent involvement in the family business since the age of 16 while balancing full-time university studies, developing strong collaboration skills through teamwork in demanding, fast-paced environments, and demonstrating professional maturity and discipline by successfully managing operational responsibilities alongside long-term academic goals
